

# Editing a Wiki Page

You can use the Wiki for providing an overview of a project. You can also post lab notes, contacts, or project details on the wiki. The Wiki supports Markdown and MathJax syntax.

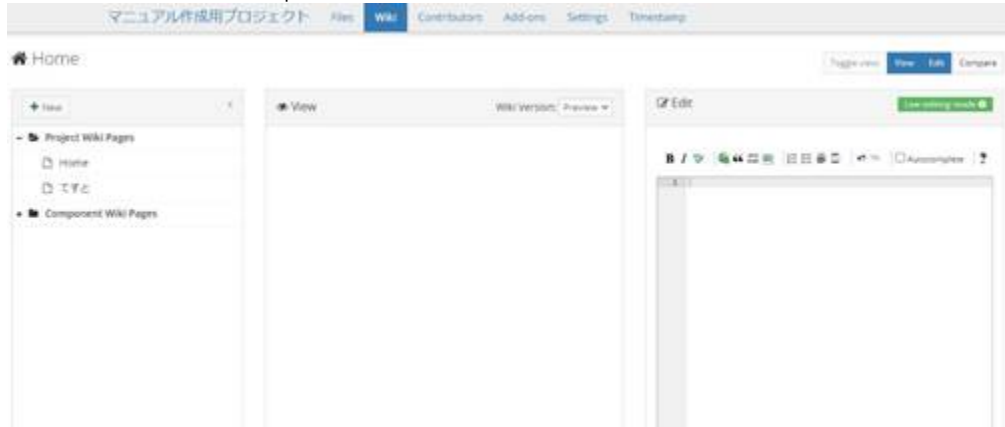

The Wiki allows all contributors of a team to edit collaboratively. You can also share the Wiki with contributors to allow them editing. All versions of the edited Wiki page are saved, so you can always go back to the previous version and compare it with the current content.

## Opening the Wiki Editing Screen

Click 'Wiki' in the navigation bar on a project's main screen and move to the Wiki editing screen.

If the 'Edit' button on the toolbar at the top right of the screen is not turned on, click it to turn it on to display the 'Edit' pane. \*(This will be displayed separately.)

Enter the content in the 'Edit' panel.

When you turn on the 'View' button on the toolbar, the 'View' pane will appear in the centre. The content you have entered will be displayed as a preview.

## Formatting the Text

Even if you don't know the Markdown syntax, you can format the Wiki from the toolbar on the 'Edit' pane. The formats that can be set are as follows in order from the left.

- Bold formatting
- Italic formatting
- Inserting a hyperlink
- Inserting a blockquote
- Inserting a code sample
- Inserting an image
- Inserting a numbered list
- Inserting a bulleted list
- Inserting a heading
- Inserting a horizontal rule

The next two buttons are not formatting buttons, but allow you to 'undo' and 'redo' the input.  
If you check the autocomplete checkbox, autocomplete will be enabled. It will predict Wiki syntax from the characters you type.

## Embedding a File

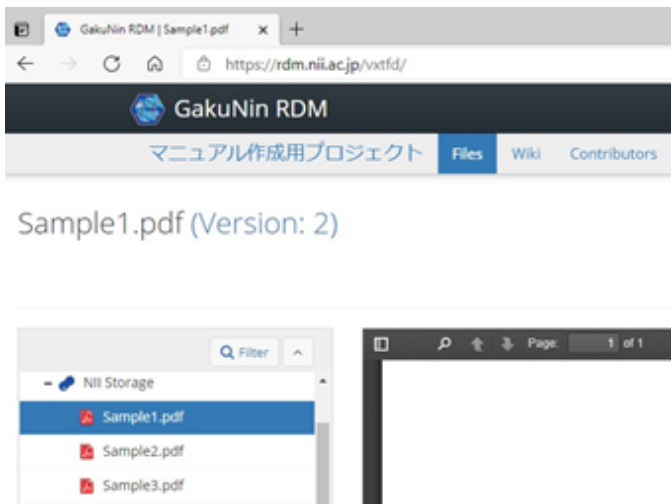

### Embedding files from NII storage

To browse the files uploaded to NII storage from the Wiki page, open the file you wish to embed and copy the Globally Unique Identifier (GUID) from the file's URL.

When you open the uploaded file, the URL will have the following format.

<https://rdm.nii.ac.jp/ptsg4/>

In this example, the GUID is the 5 characters 'ptsg4' after <https://rdm.nii.ac.jp/>.

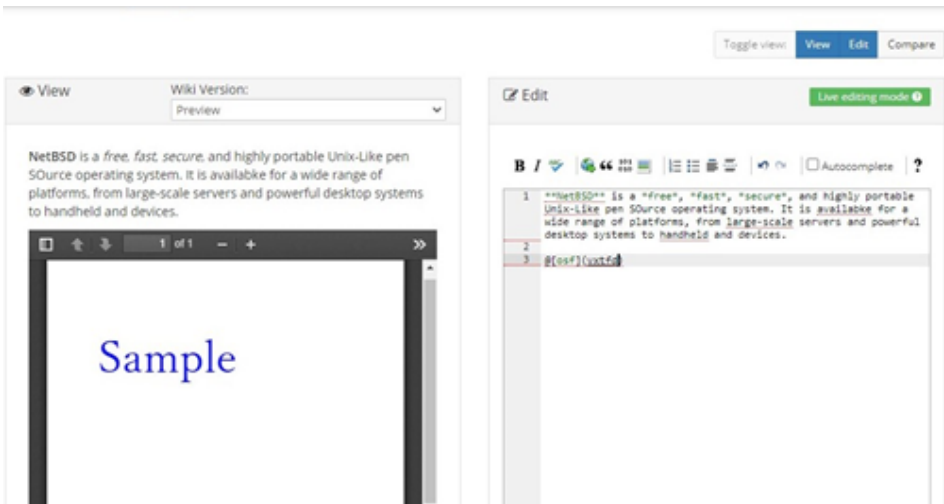

In the Wiki editor, paste the following syntax GUID and embed it using the following syntax.

@[osf](GUID)

If the GUID is ptsg4, it will be as written below.

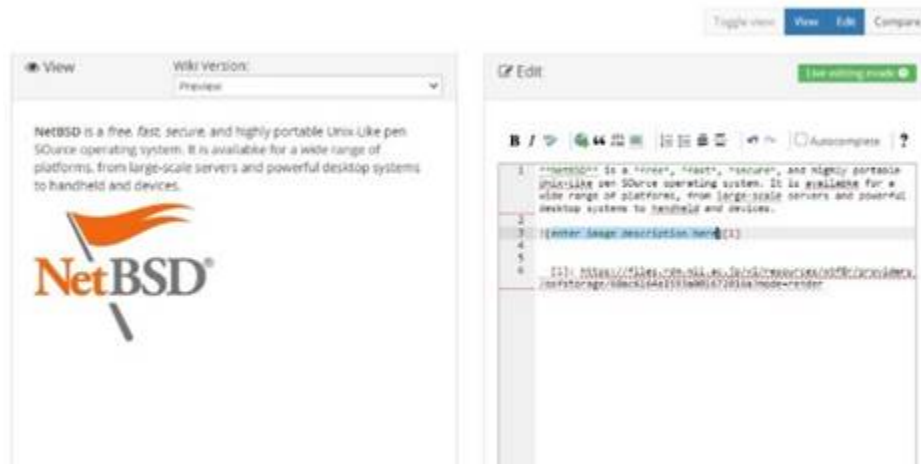

@[osf](ptsg4)

When you click the green 'Save' button below the 'Edit' pane, the changes will be reflected and the specified file will be embedded in the Wiki.

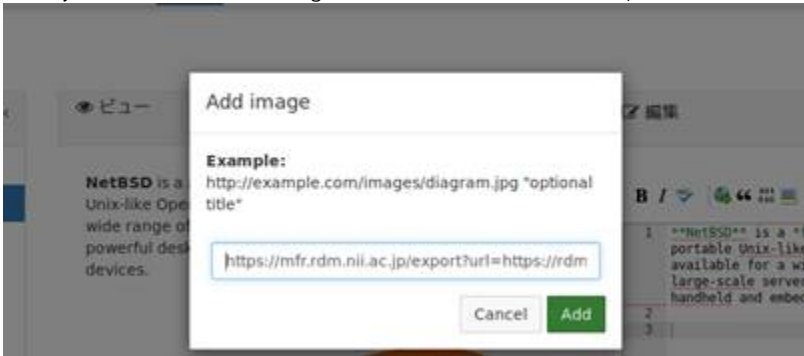

## Uploading an image file in a local folder

You can drag and drop image file(s) from your local folder into the 'Edit' pane.  
Click the green 'Save' button below the 'Edit' pane to save your changes.

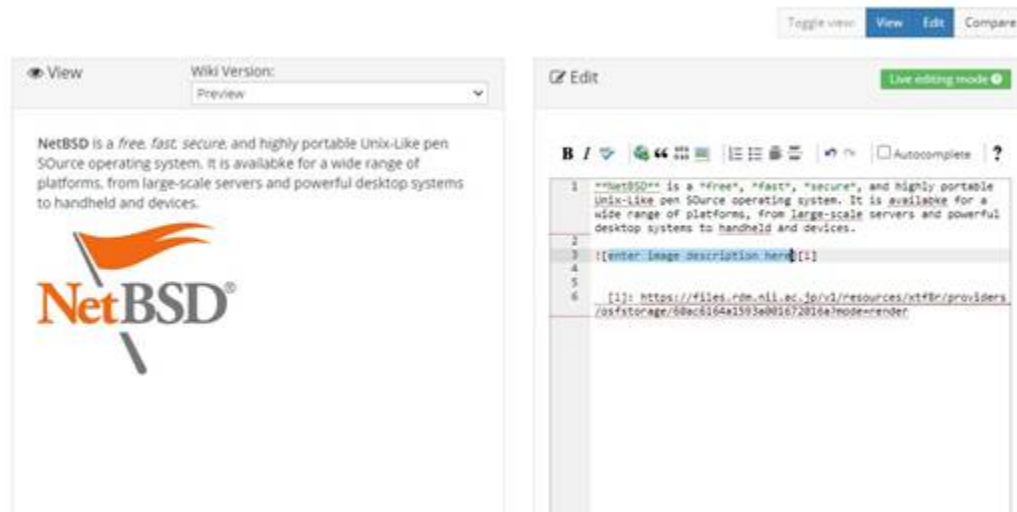

## Embedding an image

To embed the image uploaded to a project in the Wiki, copy the URL of the image.  
For information on how to upload an image to a project, please refer to 'Registering a File' in the manual.  
When you click the 'Insert an Image' icon on the Wiki editor toolbar, a modal window will appear.

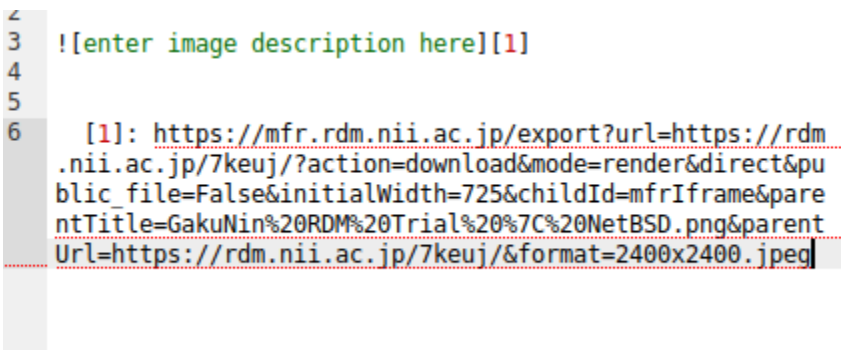

Paste the URL of the copied image address and click 'Add' to embed the image in the Wiki page.  
Click the green 'Save' button below the 'Edit' pane to save your changes.

## Adjusting the image size

When you embed an image in a Wiki, a footnote will be included in the Markdown syntax.

To change the image size, first delete this footnote and the footnote number immediately after the image description.  
Then, add the image URL enclosed in half-width brackets immediately after the image description.

```
![enter image description here](https://mfr.rdm.nii.ac.jp/...)
```

```

2
3 ![enter image description
here](https://mfr.rdm.nii.ac.jp/export?url=https://rdm.
nii.ac.jp/7keuj/?action=download&mode=render&direct&pub
lic_file=False&initialWidth=725&childId=mfrIframe&paren
tTitle=GakuNin%20RDM%20Trial%20%7C%20NetBSD.png&parentU
rl=https://rdm.nii.ac.jp/7keuj/&format=2400x2400.jpeg)

```

To specify the size of the image in pixels, add the following syntax after the image URL (m, n can be any number of pixels):

```

![enter image description here](https://mfr.rdm.nii.ac.jp/...=mxn)

```

devices.

```

available for a wide range of platforms, from
large-scale servers and powerful desktop systems to
handheld and embedded devices.

nii.ac.jp/7keuj/?action=download&mode=render&direct&pub
lic_file=False&initialWidth=725&childId=mfrIframe&paren
tTitle=GakuNin%20RDM%20Trial%20%7C%20NetBSD.png&parentU
rl=https://rdm.nii.ac.jp/7keuj/&format=2400x2400.jpeg
=200)

```

To match the size of the image to the page width, add the following syntax after the URL (set as: image URL + space + = + % specified + x).

```

![enter image description here](https://mfr.rdm.nii.ac.jp/...=100%x)

```

```

2
3 ![enter image description
here](https://mfr.rdm.nii.ac.jp/export?url=https://rdm.
nii.ac.jp/7keuj/?action=download&mode=render&direct&pub
lic_file=False&initialWidth=725&childId=mfrIframe&paren
tTitle=GakuNin%20RDM%20Trial%20%7C%20NetBSD.png&parentU
rl=https://rdm.nii.ac.jp/7keuj/&format=2400x2400.jpeg
=100%x)

```

To change the image size to a relative size, use percentages (n can be any percentage number).

```

![enter image description here](https://mfr.rdm.nii.ac.jp/...=n%x)

```

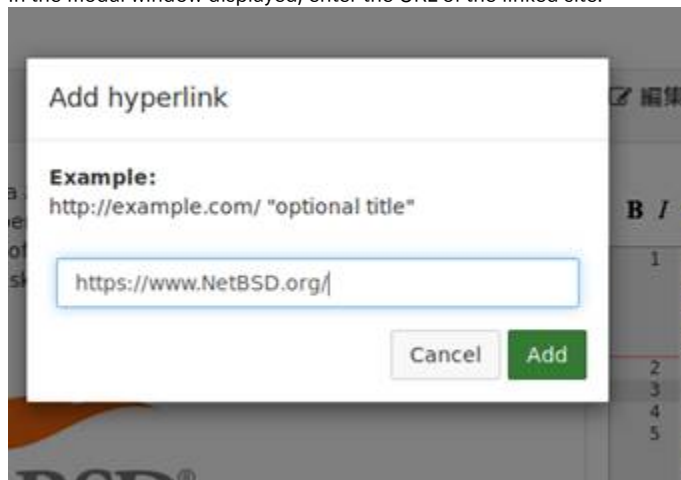

```

```

## Inserting a Link

To insert a link into the Wiki, click the 'Insert a Hyperlink' button on the toolbar.  
In the modal window displayed, enter the URL of the linked site.

powerful desktop systems to handheld and embedded devices.

[enter link description here](https://www.NetBSD.org/)

portable unix-like open source operating system. It available for a wide range of platforms, from large-scale servers and powerful desktop systems to handheld and embedded devices.

```

2
3 [enter link description here][1]
4
5
6 [1]: https://www.NetBSD.org/

```

## How to Link to Other Wiki Pages

For Wiki links, please use Markdown notation. When linking to the Wiki page of a project, specify it with a relative address such as '.. /Implementation'.

## Adding a Table of Contents

You can add a table of contents to the Wiki. Add the following syntax to the table of contents.

`@[toc](optional_label)`

The 'optional\_label' part is the heading of the table of contents. If you left it blank, the heading for the table of contents will be displayed as 'Table of Contents'.

When you insert an item name to be added to the table of contents anywhere in the Wiki according to the following syntax, it will be added automatically to the table of contents. If you click the item name in the table of contents, you will be taken to that location.

```
## linked text ##
## linked text ##
```

```
optional_label
* linked text 1##
* linked text 2##

linked text 1##
text1

linked text 2##
text2
```

```
1
2
3
4 @[toc](optional_label)
5
6 == linked text 1==
7
8 text1
9
10 == linked text 2==
11
12 text2
```

## Embedding Videos on External Sites such as Youtube

You can embed videos on Youtube, Vimeo, Vine and Prezi into the Wiki using simple Markdown syntax.

For Youtube videos:

`@[youtube](https://www.youtube.com/watch?v=NqC2uagJZpw)`

For Vimeo videos:

`@[vimeo](https://vimeo.com/127891298)`

For Vine videos:

`@[vine](https://vine.co/v/hApxwH3Uax2/embed)`

For Prezi videos:

`@[prezi](https://prezi.com/9jcaq4arxj22/communicating-science-to-the-public/#)`

Please replace the URL with the address of the video or presentation you wish to embed.

## Inserting a Table

You can insert a table into a Wiki page using Markdown syntax.

Line breaks are indicated by starting a new line, and cells are separated by vertical pipes. Please refer to the examples below.

```
| header cell 1 | header cell 2 |
```

```
| ----- | ----- |
```

```
| row 1 cell 1 | row 1 cell 2 |
```

row 2 cell 1	row 2 cell 2
row 3 cell 1	row 3 cell 2
row 4 cell 1	row 4 cell 2
-----	-----
row 5 cell 1	row 5 cell 2

header cell 1	header cell 2
row 1 cell 1	row 1 cell 2
row 2 cell 1	row 2 cell 2
-----	-----
row 3 cell 1	row 3 cell 2
row 4 cell 1	row 4 cell 2
-----	-----
row 5 cell 1	row 5 cell 2

	handheld and embedded devices.	
2		
3	header cell 1	header cell 2
4	-----	-----
5	row 1 cell 1	row 1 cell 2
6	row 2 cell 1	row 2 cell 2
7	-----	-----
8	row 3 cell 1	row 3 cell 2
9	row 4 cell 1	row 4 cell 2
10	-----	-----
11	row 5 cell 1	row 5 cell 2
12
