Adding and Deleting a Wiki Page & Changing a Page Name

Opening the Wiki Editing Screen

Click 'Wiki' on the navigation bar of the project's main screen to move to the Wiki editing screen.

Adding a Page

Press '+ New' at the top of the tree view pane on the far left to bring up the 'Add new Wiki page' modal window.
Enter the page title in the text box in the window and click the 'Add' button.
A new page will be added to the Wiki.

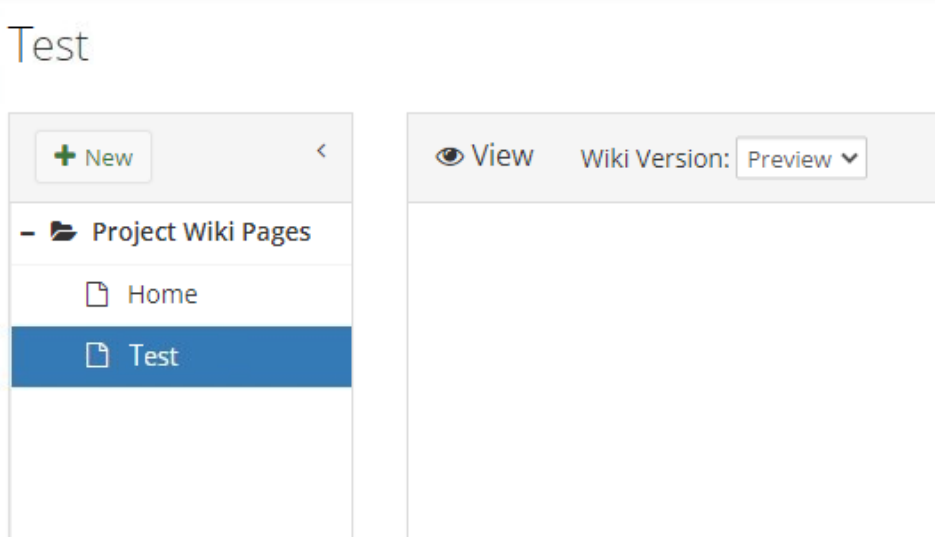

Deleting a Page

Open the page you wish to delete. The 'Home' page cannot be deleted.
Click the 'Delete' button at the top of the tree view pane on the far left to bring up the 'Delete Wiki page' modal window.
When you click the 'Delete' button in the modal window (child window), the page will be deleted.

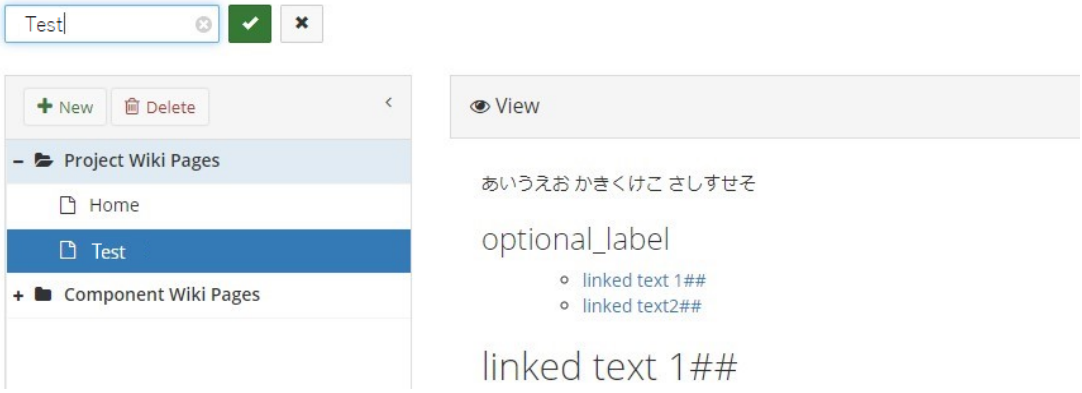

Renaming a Wiki Page

This example shows changing the page name of the Wiki page called 'Test' under 'Project Wiki Pages'.
The Project Wiki Pages has Wiki pages called 'Home' and 'Test'. When you click 'Test', you will be taken to a Wiki page called 'Test'.

If you move the cursor to the page name at the top left of the page, the colour of the page name will change. Click it to bring up a text box.

Enter a new page name in the text box.
When you click the check button on the right side, the page name will be changed.
