

GakuNin RDM Past Information

GakuNin RDM will be unavailable from 00:00 to 04:00 on Mar 26, 2022[JST] [2022/3/23 14:45]

GakuNin RDM will be unavailable from 00:00 on Mar 26, 2022[JST] about 4 hours due to system maintenance. We were sorry for the inconvenience.

[2022/3/2 10:00] GakuNin RDM will be unavailable from 00:00 to 04:00 on Mar 23, 2022[JST]

GakuNin RDM will be unavailable from 00:00 on Mar 23, 2022[JST] about 4 hours due to system maintenance. We were sorry for the inconvenience.

Temporary suspension of GakuNin RDM NII storage due to maintenance at SINET from 00:00 to 02:00 on Mar XX, 2022[JST] [2022/03/01 10:00, 2022/03 /14 15:00 update]

Some GakuNin RDM services will be unstable due to maintenance at SINET.
Service restricted : 00:00 to 06:00 on Mar 15, 2022[JST]
Limited function is as follows:
Access to NII storage

Please note that this it will finish earlier or later depending on the work.
You can recover by restarting the browser or clearing the cache.

[2022/3/2 18:15] Communication failure toGakuNin RDM occurred in the following area from 12:46 to 17:23 on Mar. 2, 2022 [JST]

We have confirmed that connection is possible.
We deeply apologize for the inconvenience.

[2022/3/2 16:00] Communication failure to GakuNin RDM

Due to an access problem, GakuNin RDM is currently unavailable from 12:48 to present on Mar. 2, 2022 [JST]
We deeply apologize for the inconvenience.

[2022/2/14 16:15] Temporary suspension of GakuNin RDM NII storage due to maintenance at SINET from 09:00 to 014:10 on Feb 26, 2022 [JST]

Some GakuNin RDM services will be unstable due to maintenance at SINET.
Service restricted : 09:00 to 014:10 on Feb 26, 2022[JST]
Limited function is as follows:
Access to NII storage

Please note that this it will finish earlier or later depending on the work.
It doesn't influence users who use institutional storage or extended storage via the Internet.

[2022/1/21 10:00] GakuNin RDM Response to Apache Log4j Remote Code Execution Vulnerability (CVE-2021-44228)

GakuNin RDM has performed maintenance and applied the workaround provided by The Apache Software Foundation.

As of Friday, January 7, 2022, all known countermeasures against Apache Log4j Security Vulnerabilities have been cleared. We also conducted a log check to ensure that there were no attacks.

Announcements: GakuNin RDM officially launched

National Institute of Informatics has developed a research data management platform called "GakuNin RDM" for systematically managing and sharing prepublication research data, and began its full operation from Monday, February 15th, 2021.

[News Release](#)

Please make sure to confirm the following documents before applying GakuNin RDM.

[2021/12/24 13:00] GakuNin RDM will be unavailable from 00:00 to 04:00 on Jan 6, 2022[JST]

GakuNin RDM will be unavailable from 00:00 on Jan 6, 2022[JST] about 4 hours due to system maintenance. We were sorry for the inconvenience.

[2021/12/7 10:00] GakuNin RDM application and inquiry desk will be closed for Winter Holidays of NII

GakuNin RDM application and inquiry desk will be closed for Winter Holidays of NII.

Closed: From Dec 28, 2021, 5:00 p.m. to Jan 4, 2022, 9:00 a.m.

We will respond to application and inquiries after January 4, 2022.

GakuNin RDM and application system will keep running during this time, but inquiries and processing of applications will be suspended.

[2021/11/22 10:00] Temporary suspension of GakuNin RDM NII storage due to maintenance at AWS-SINET on Dec 8, 2021[JST]

GakuNin RDM service will be unavailable due to the network switching of GakuNin RDM.

●Outline of maintenance work

Service stop: 00:00 on Dec 8, 2021[JST] about 3 hours

Limited function: Access to NII storage

Purpose: To change the configuration of the AWS SINET connection and to make the multipath routing via the SINET Osaka DC

Please refrain from using GakuNin RDM due to network switching between GakuNin RDM and NII standard storage.

It doesn't influence users who use institutional storage.

[2021/07/28 16:00] GakuNin RDM NII storage will be restricted due to maintenance at AWS-SINET in the early morning on Aug 25, 2021[JST]

GakuNin RDM NII storage will be stopped due to maintenance at AWS-SINET

Service stop: early morning on Aug 25, 2021[JST]

Limited function is as follows:

- Access to NII storage (Communication interruption for about 1 to 2 hours)

Please note that this it will finish earlier or later depending on the work.

It doesn't influence users who use institutional storage or extended storage via the Internet.

[2021/08/03 9:00] About GakuNin RDM application and inquiry desk during Summer Holidays from Aug 13 to Aug 16, 2021

GakuNin RDM application and inquiry desk will be closed for Summer Holidays of NII.

Service stop: from Aug 13 to Aug 16, 2021

We will respond to application and inquiries after Aug 17.

GakuNin RDM and application system will keep running during this time, but inquiries and processing of applications will be suspended.

[2021/07/29 14:00 GakuNin RDM NII storage will be restricted due to maintenance at SINET from 00:00 to 03:00 on Aug 2, 2021[JST]

GakuNin RDM NII storage will be stopped due to maintenance at SINET.

Service stop: 00:00 to 03:00 on Aug 2, 2021[JST]

Limited function is as follows:

Access to NII storage (Connection from GakuNin RDM to NII storage will be disconnected for about 2 hours)

If you want see the details, please see below.

<https://www.sinet.ad.jp/inform/maintenance/2021-08-02tokyo1>

Please note that this it will finish earlier or later depending on the work.

NII storage may stop functioning even if GakuNin RDM login is possible.

It doesn't influence users who use institutional storage or extended storage via the Internet.

Temporary suspension of GakuNin RDM services due to equipment maintenance from 00:00 to 02:00 on June 27, 2021[JST]

GakuNin RDM services will be unstable due to AWS Direct Connect-SINET Connection network maintenance.

Service stop: About several times between 00:00 to 02:00 on June 27, 2021[JST]

Limited function is as follows:

- Access to NII storage

Please note that this it will finish earlier or later depending on the work.

It doesn't influence users who use institutional storage or extended storage via the Internet.

Even if you can log in GakuNin RDM, NII storage may stop.

Temporary suspension of GakuNin RDM services at 00:00-6:00 on May 6, 2021 [JST]

GakuNin RDM services will be unstable due to maintenance at SINET.

Service stop: About 10 minutes between 0:00 and 6:00 on May 6, 2021[JST]

Limited function is as follows:

- Access to NII storage
- Some GakuNin RDM services will be restricted

Please note that this it will finish earlier or later depending on the work.

If you want see the details, please see below.

<https://www.sinet.ad.jp/inform/maintenance/2021-05-06maintenance>

Temporary suspension of GakuNin RDM NII storage from 22:01 on April 30 to 04:01 on May 1, 2021[JST]

GakuNin RDM services will be unstable due to maintenance at AWS network construction.

Service stop: Several intermittent communication outages between 22:01 on April 30 to 04:01 on May 1, 2021[JST]

Limited function is as follows:

- NII storage

It doesn't influence users who use institutional storage or extended storage via the Internet.

Please note that this it will finish earlier or later depending on the work.

Login with OpenIdP to GakuNin RDM will be restricted from 12:00-14:00 on Apr 28, 2021[JST]

Login with OpenIdP to GakuNin RDM will be stopped due to maintenance at OpenIdP

Service stop: 12:00-14:00 on Apr 28, 2021 [JST]

It doesn't influence use of your institution's IdP.

Please note that this it will finish earlier or later depending on the work.

If you want see the details, please see below.
