

Settings Screen

Profile Information

From the settings screen, you can set Profile Information / Account Settings / Configure Add-on Accounts / Notification / Developer Apps / Personal Access Tokens.

The screenshot shows the GakuNin RDM Settings interface. At the top is a dark navigation bar with the GakuNin RDM logo, 'My Projects', a search bar, and a user profile icon. On the right side of the settings page is a vertical menu with options: 'My Profile', 'Settings' (selected), 'RDM Support', and 'Log out'. The main content area is titled 'Settings' and features a left sidebar with a list of settings categories: 'Profile Information' (selected), 'Account settings', 'Configure add-on accounts', 'Notifications', 'Developer apps', and 'Personal access tokens'. The 'Profile Information' section has four tabs: 'Name', 'Employment', 'Education', and 'Social'. The 'Name' tab is active, showing a form for 'Full name (e.g. Rosalind Elsie Franklin)' with a text input field. Below this is a note: 'Your full name, above, is the name that will be displayed in your profile. To control the way your name will appear in citations, you can use the "Auto-fill" button to automatically infer your first name, last name, etc., or edit the fields directly below.' There is an 'Auto-fill' button. Below are input fields for 'Given name (e.g. Rosalind)', 'Middle name(s) (e.g. Elsie)', 'Family name (e.g. Franklin)', and 'Suffix'. A 'Citation preview' section shows a table with 'Style' and 'Citation format' columns. The table lists 'APA' (Makiko, S.) and 'MLA' (Makiko, SUEDA). At the bottom are 'Discard changes' and 'Save' buttons.

You can set the information to be displayed on the Profile Information.

Name

You can set the name to be displayed on the Profile Information.

Full Name (Given Name / Middle Name(s) / Maiden Name / Family Name / Title)

Citation Preview

This shows the format of which your work will be cited.

Employment

You can register your employment history. You can register multiple institutions and specify the one that you are currently affiliated with.

1. Institution / Employer
2. Department / Institute
3. Job title
4. Start date / End date
5. Ongoing

Education

You can register your education history. You can register multiple institutions and specify the one that you are currently affiliated with.

1. Institution
2. Department
3. Degree
4. Start date / End date
5. Ongoing

Social

You can register the SNS you are using.

1. Your websites
2. ORCID
3. ResearcherID
4. Twitter
5. GitHub
6. LinkedIn
7. ImpactStory
8. Google Scholar
9. ResearchGate
10. Academia
11. Baidu Scholar
12. SSRN

Account Settings

Account Settings

You can register your email address. For your e-mail address, please register the primary e-mail address that you mainly use. You can additionally register alternative email addresses.

Connected Identities

Connected identities allow you to log in to the GakuNin RDM via a third-party service. You can revoke the authentication via a third-party.

Change Password

You can update your password.

Deactivate Account

Deactivating your account will remove you from all public projects to which you are a contributor. Your account will no longer be associated with GakuNin RDM projects, and your work on the GakuNin RDM will become inaccessible.

Configure Add-on Accounts

You can set up an account for the storage associated with a project. The service that you authenticate your account here can be used as a file storage for the project.

Personal Access Tokens

Personal access tokens function like ordinary OAuth access tokens. They can be used to authenticate to the API. If you specify 'New token', a personal access token will be created.
