※This site was no longer updated as of July 5, 2022. It will be closed in the future.
※Please visit the [new site](#) thereafter.

GakuNin RDM is a "research data management service" for managing and sharing research data,

which forms a part of a research data platform called the NII Research Data Cloud (NII RDC) (*), provided by NII.

(*) NII Research Data Cloud (NII RDC):

The NII Research Data Cloud serves as an e-infrastructure where research data and other related files can be managed, stored, and discovered. It consists of three unique platforms: a research data management platform (GakuNin RDM), a repository platform (WEKO3), and a discovery platform (CiNii Research).

See <https://rcos.nii.ac.jp/en/service/> for details.

Latest News

Timestamp services will be restricted from 21:00 to 21:30 on July 24, 2022[JST] 【2022/6/22 10:15】

GakuNin RDM timestamp services will be restricted from 21:00 to 21:30 on July 24, 2022[JST] about 30 seconds due to maintenance of the timestamp service.

During the communication breakdown, timestamp generation may fail.

If timestamp generation or verification fails, please try again to generate or verify the timestamp.
